Information Disclosure Statement

The IDS filed 2/5/04 has been considered in full.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance.

The prior art neither teaches nor makes obvious an isolated nucleic acid consisting of the full length of SEQ ID NO: 1 or a protein 90% identical to SEQ ID NO: 1, or the full complements of these. Nor does the prior art teach or fairly suggest an isolated nucleic acid molecule which encodes a polypeptide comprising or consisting of SEQ ID NO: 2. Claims 40-42, 46, and 51 have utility as the specification discloses that the inventive sequences may be used to detect pathogenic organisms and/or to distinguish pathogenic *Corynebacterium* species from nonpathogenic species.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
